Solution oriented Data Analyst with 2.5 years of experience in Power BI, MS Fabric and SQL. Skilled in ETL, data modeling, and developing complex queries, with proficiency in Python for data cleaning and manipulation. Passionate about leveraging data to drive business growth and innovation.

Skills

- Power Query (M- Query)
- DAX
- Power BI Dexktop
- Power BI Service
- Advanced Excel
- SQL
- MySQL
- MS Fabric
- Python
- Data Modelling
- Data Cleaning
- Data Transformation
- Data Analysis
- Data Visualization
- Data Storytelling
- Paginated Report

Experience

Intech Systems Pvt. Ltd, Ahmedabad   **Feb 2023 – Present**
BI Developer (Technical Consultant)

- Developed and delivered 25+ Business Intelligence reports across Finance, Sales, HR, Inventory, Procurement and Production, resulting in a 40% increase in cross-departmental data visibility and actionable insights.
- Improved executive reporting accuracy by 30% by advanced data visualization techniques, such as trend analysis and comparative charts, to convey KPIs including sales numbers, budget allocations, and YoY trends.
- Proficient in using Python's Pandas and NumPy libraries for data cleaning and manipulation, like removing and replacing null values.
- Worked with cross-functional teams to gather requirements and implement business needs.
- Optimized MQuery by restructuring queries and eliminating redundant steps, reducing data refresh times by 25%.

Projects

IDEC Corporation

- Replicated more than 20+ reports of the JET reports with Power BI reports.
- Created SQL views using joins, GROUP BY, ORDER BY clauses in SQL for data preparation.

Bhagwati Spherocast

- Automated more than 15 Excel reports using Power BI which increased more than 60% efficiency in the analysis process.
- Integrated data from multiple sources like Excel, SQL Server, and D365FO in a single report.
- Implemented incremental refresh to optimize the refresh time and query overload.

Nestle

- Developed and delivered 3 Power BI report for sales calendar module, which includes the planning of their product sales by different parameters, and also developed 10 Paginated Reports.
- Implemented RLS on the 3 reports to ensure that users only see data relevant to them.

Enprocon

- Created 6 Standard Power BI report for Business Central users which includes Sales, Finance, Purchase, Inventory, AR, and AP reports.
- These are plug-and-play reports that take less than 1 day to configure and deploy for any of the clients.

Education
